## SECTION SF 30 BLOCK 14 CONTINUATION PAGE

## SUMMARY OF CHANGES

## SECTION SF 1449 - CONTINUATION SHEET

The following have been modified:

## 52.212-2 EVALUATION--COMMERCIAL ITEMS (JAN 1999)

The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered.

In accordance with Federal Acquisition Regulation 13.106-2 (b)(3) – Evaluation Procedures, quotations will be evaluated in an efficient and minimally burdensome fashion by evaluating only the lowest priced quotation. Factor(s) will be evaluated for technical acceptability and will be scored on a Pass or Fail basis. If one or more of the lowest priced quotation's factor(s) is rated as Fail, then the next lowest priced quotation will be evaluated. The process will be repeated until award is made on the basis of the lowest evaluated proposal price whose factor(s) are rated as Pass.

The offeror is responsible for submitting a well-written proposal, with adequately detailed information, which clearly demonstrates compliance with the solicitation requirements.

**Past Performance (Factor):** Past performance is an indicator of an offeror's ability to perform the contract successfully. This factor will be rated Pass or Fail based on whether the offeror demonstrates successful past performance. In the case of an offeror without a record of relevant past performance or for whom information on relevant past performance is not available, the offeror must demonstrate successful past performance regarding predecessor companies, key personnel or subcontractors that will perform major or critical aspects of the requirement who have experience relevant to the Government's requirement. Past failure to apply sufficient tenacity and perseverance to perform acceptably is strong evidence of unsuccessful past performance. Also, failure to meet the quality requirements of a contract is a significant factor to consider in determining satisfactory performance.

The offeror must submit information from at least two past (completed in the last 3 years) or current contracts (including Federal, State, and local government and private) which were/are similar in size and complexity, including greater in size and complexity, to the to the Government's requirement and one contract completed during this year. . Offerors must include the following information for each of the three contracts.

- Name of customer
- Customer's telephone number
- Brief description of contract
- Total contract value
- Performance period

Offerors may provide information on problems encountered on the identified contracts and the offeror corrective actions. The Government will consider the currency and relevance of the information, source of the information, context of the data, and general trends in contractor's performance. The Government will consider this information, as well as information obtained from any other sources.

**KEY PERSONNEL QUALIFICATIONS (Technical Factor):** The Government will evaluate the offeror's Key Personnel Qualifications to assess their technical knowledge and experience similar in size and complexity to the Government's requirement. The offeror shall demonstrate that a civil engineer or mechanical engineer or environmental engineer works for their company

(b) Options. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

(c) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(End of clause)
